SISTRAN

sistran.com

Who are we?

For almost 40 years, SISTRAN™ has been delivering more than just great insurance functionality and technology. Deep, personal relationships are part of our culture, indulging our customers with personalized solutions, technology and services.

Building software is the easy part. SISTRAN indulges each and every client, building deep relationships built on performance and trust, earned each and every day.

SISTRAN solutions and services are focused on the unique insurance, business, financial, marketplace and organizational needs of each client.

When you select SISTRAN, it's not just another policy, billing, claims, CRM, imaging, reporting system. Each SISTRAN relationship, implementation and deployment is carefully tailored to indulge individual client with an insurance solution and partnership that uniquely meets their needs, goals and budget.

Each implementation has a distinctive deployment environment including local or hosted technology, office distribution, sales/service options and resources. SISTRAN's unique indulgent approach includes fair pricing options in addition to integration within the current ecosystem and access to knowledgeable consulting service.

SISE is a suite of insurance solutions that reduces the cost of doing business through automation and optimizing risk selection through the use of rule based underwriting. SISE is the result of almost 40 years of experience in the insurance industry and over 150 successful customer implementations.

SISE comes with a powerful functionality to support the rapid development and launch of new products that allows your company to innovate, adapt and react fast.

Straight-through processing (STP) and integrated workflow capabilities automate the end-to-end processing of policies and endorsements providing low cost transactions and high efficiency.

SISE provides features that enable agents with on-line system access and automated underwriting to greatly reduce the cost of policy processing. Mobile solutions can be deployed, for you or your sales force, on almost any mobile device.

SISE based on Service Oriented Architecture (SOA), allowing for easy integration with other systems. Reduced development time and maintenance, plus STP capabilities.

Insurance is all about listening, evaluating risk, meeting needs and indulging clients with great service.

Shouldn't your insurance IT provider do the same?

Our Mission:

To grow the insurance market sector by applying our outstanding ability to develop customized software solutions for our customers, based on:

- Permanent planning and evaluation processes to ensure best available business models and fully trained staff across the entire corporation.
- A thorough and in-depth understanding of local market regulations aimed at ensuring global coverage and local support.
- An up to date understanding and use of most recently developed and best available technology and insurance sector business trends.

Our Vision:

Be the best software solutions company in the insurance market.
